City of Twin Falls Public Records Request

Requestor Information

Please list your information here. Include your request details in the space provided below.

Requestor First Name * [redacted] **Requestor Last Name** * [redacted]

Requestor Address 1 * [redacted]

Requestor Address 2 [redacted]

Requestor City * [redacted] **Requestor State** * [redacted] **Requestor ZIP Code** * [redacted]

Requestor Phone Number * [redacted] **Requestor E-mail** * [redacted]

Type of Request *

(•) Personal ( ) Commercial ( ) Legal

Request Details *

If you are requesting multiple records, please attach your list below. If you do not have a case/event/citation number, please include enough information to identify the records you want. If your request is for multiple items, it may be subject to fees for preparation. We have records for the Twin Falls Police Department (city, not county) only.

PLEASE READ!

I get the feeling you didn't read the request at all. I clarified my request as it was misinterpreted the first time in request 5061.

I am not asking for you to create a compilation or record you don't have. I'm asking for copies of the initial requests, like the one that was returned to me with my first request. Here is the request again. Reach out to me for clarification if there is still ambiguity - email is my preferred contact method because of other obligations during business hours.

> ***In response to request number 5061.I got your response this evening. I guess I wasn't very clear in what I wanted.Can I get a copy of all of the public records requests from June 1st - October 31st?I just wanted a copy of what you sent back to me in the response, but for all the requests. I wasn't asking you to make me a list, just copies of what you already had.***

Because my request was numbered above 5000, I'd assume this means that you keep records of the requests or at least the requests themselves. Please respond to the simple request I've made. Public records that you keep in the course of official business become public records themselves. My example that you returned to me omitted my personal information, so I think this is fairly easy to provide copies of these public records requests.

If the answer is again no, I'll assume you are asserting that the city does not maintain copies of public records requests beyond a certain point, but my email gave me 30 days to retrieve the results, which means you have at least the past 30 days of requests on hand. Please provide what you have within the scope of my request and if you do not have what's required, please provide an explanation of when you get rid of the requests. Public records requests are made in good faith that the government is both tasked by law and also willingly being transparent with their business as it is funded by the public.

Good Morning,

I am reaching out to you about the public records request that you keep submitting. You are asking us to create a report or list that does not exist. When someone puts in a request and that request is complete it goes into a secured folder, each individual request goes into its own folder in that secured location.

For what you asked for someone in IT would have to open each individual folder and download the request and then create a list with the information you want. That is thousands of requests and would take several hours to complete, therefore that would be someone having to create a report or list, which Idaho Public records law does not require us to do.

I can give you the total number of requests that we have received since June 1st to October 1st and that number is 1,365 requests for that time frame.

Let me know if you have any other questions.

Rachael Long
Deputy City Clerk
City of Twin Falls
Twin Falls, ID 83303

I believe there is still a misunderstanding regarding what I am requesting.
I am not requesting a report, list, spreadsheet, summary, or compilation of information from public records requests.
I am requesting copies of the public records requests themselves, like the sample i sent from my records request.
Your email indicates that completed public records requests are retained by the City and stored individually after completion. Those request documents ***are*** the records I am seeking.
Because the records already exist and because the City was able to identify approximately 1,365 responsive requests within the requested date range, i respectfully request production of those existing records.
Please do consult with IT to determine how difficult this might be as you indicated that it is possible.
Again, I am requesting copies of what you have, not a compilation or summary.
