I am sorry but that is not a record that we will be able to fill, the amount of time that would take to go into each individual request and redact all the information that
you are not privileged to would take our IT department days to fill.
And yes our IT department is the one that would have to fill that request and there would be a large charge for the hours that would take to do.

⚠️ Caution: EXTERNAL SENDER – Be cautious
opening any links or attachments from unknown or unexpected senders.
If the sender appears to be from tfid.org , do
not trust the email.
I believe there is still a misunderstanding regarding what I am requesting.
I am not requesting a report, list, spreadsheet, summary, or compilation of information from public records requests.
I am requesting copies of the public records requests themselves, like the sample i sent from my records request.
Your email indicates that completed public records requests are retained by the City and stored individually after completion. Those request documents
are the records I am seeking.
Because the records already exist and because the City was able to identify approximately 1,365 responsive requests within the requested date range,
i respectfully request production of those existing records.
Please do consult with IT to determine how difficult this might be as you indicated that it is possible. Again, I am requesting copies of what you
have, not a compilation or summary.

Good Morning,
I am reaching out to you about the public records request that you keep submitting. You are asking us to create a report or list that does not exist.
When someone puts in a request and that request is complete it goes into a secured folder, each individual request goes into its own folder in that secured location.
For what you asked for someone in IT would have to open each individual folder and download the request and then create a list with the information

you want. That is thousands of requests and would take several hours to complete, therefore that would be someone having to create a report or list, which Idaho Public records law does not require us to do.
I can give you the total number of requests that we have received since June 1 st to October 1 st and that number is 1,365 requests
for that time frame.
Let me know if you have any other questions.

I was just talking to our IT department and one of them is going to run a report and see what it looks like and that is what you are going to receive, they will do the best
that they can to get what you are wanting

Subject	City of Twin Falls Records Request Extension Notice for Request #5162
SHA-256 of the received .eml	`cdf75cd5462d4eb99dfa652736cbe43b1b123420b7b9ee60ba751f67825ba904`

Your request to examine public records was received on 11/3/2026 8:30:16 PM. The City will be unable to process the request within statutory three (3) working days and a longer period of time will be necessary to locate, retrieve, and review the records. This
letter is to provide notice for an extension of ten (10) working days from the date of your original request under Idaho Code 74-103(2). Your patience in this matter is appreciated and we will contact you when these records are available for release. Thank
you, and we look forward to processing your request.
